Wherever possible, Swibeco SA will describe the nature of the security incident, as well as any measures taken to mitigate potential risks and recommendations to the Client Company. It is important to note that the actions taken by Swibeco SA do not constitute, and should not be construed as, an admission of fault or liability in connection with the security incident in question.
- Swibeco SA refrains from examining the content of subcontracted Personal data in order to identify their nature. Responsibility for analysing such subcontracted Personal data and complying with applicable legal requirements, including any obligations to report security incidents to the relevant authorities and/or data subjects, rests solely with the Client Company. In this respect, Swibeco SA commits to providing the Client Company with any assistance reasonably required to meet its obligations.

Unless otherwise stipulated in the Contract, the **Client Company** agrees that **Swibeco SA** will store and process the outsourced **Personal data** in Switzerland, or in a country that has been recognised by Switzerland as providing an adequate level of data protection in which **Swibeco SA** or one of its **Subprocessors** maintains facilities.

### 5.2. Authorisation for **Subprocessors**

The Client Company accepts that when Swibeco SA hires a Subprocessor in accordance with Article 6 below to perform specific Processing activities in a third country which has not been recognised by Switzerland as providing an adequate level of data protection, Swibeco SA may use the European Commission's Standard Contractual Clauses, or another valid mechanism, in order to comply with the requirements of the Data Protection Legislation, and the Client Company hereby accepts such transfer provided that the conditions for the validity of such a mechanism are met.

# 6. Subprocessors

#### 6.1. Updated list of Subprocessors

Unless otherwise stipulated in the Contract, the **Client Company** specifically authorises **Swibeco SA** to subcontract all or part of the Services and **Processing** for **Personal data** transmitted by the **Client Company**. The updated list of **Subprocessor** is available below.

### 6.3. Your right to object:

When a new **Subprocessor** is hired, **Swibeco SA** will inform the **Client Company** at least 30 days before the new **Subprocessor** is hired and processes the **Client Company**'s **Personal data**.

**Swibeco SA** will indicate the name, location and activities that this **Subprocessor** will carry out on its behalf either by sending an e-mail to the contact e-mail address indicated in article 8, or via a notification on the mobile application.

The **Client Company** then has a period of 30 days from notification of the addition or replacement of a **Subprocessor** (including the name, location and activities of the **Subprocessor** in question) to submit objections.

The **Client Company** may object to any new **Subprocessor** on reasonable grounds (for example, if making data available to the **Subprocessor** may violate applicable data protection laws) by notifying **Swibeco SA** in writing within 10 business days after receipt of the notification. This objection must be sent to <a href="mailto:privacy@swibeco.ch">privacy@swibeco.ch</a> and contain a description of the reasonable grounds for the objection.

**Swibeco SA** will use reasonable efforts to analyse any valid concerns raised by the **Client Company** with respect to the new **Subprocessor** and to mitigate any reported risks (including a potential replacement of the **Subprocessor** if critical issues are raised).

If an agreement is not reached, the **Client Company** is entitled to terminate the Contract, regarding the Subcontracted Services, by written notice sent within 30 days of notification of confirmation by **Swibeco SA** of the appointment of the **Subprocessor**.

It should be noted that this right of termination constitutes the **Client Company's** sole and exclusive recourse in the event of an objection concerning a new **Subprocessor**. The absence of a response from the **Client Company** within the deadlines mentioned in this article will be interpreted as acceptance of the new **Subprocessor**.

# 7. The support we provide

If Swibeco SA receives a request from a person with a User Account concerning Personal data processed as a Data Processor on behalf of the Client Company, Swibeco SA will advise such person with a User Account to direct their request to the Client Company. It is essential to note that the Client Company is the party responsible for responding to any requests from persons with a User Account. The parties agree that the decision as to whether or not to comply with requests from persons concerned in such cases is the sole responsibility of the Client Company.

In addition, **Swibeco SA** provides assistance to the **Client Company** in complying with its legal obligations to persons using its **Services**, insofar as this is reasonably practicable. These measures encompass all the rights granted to data subjects under the data protection legislation applicable to them, including but not limited to the rights of access, rectification, limitation, opposition, deletion and portability of **Personal data** concerning them.

# 8. Which point of contact at your company?

If the **Client Company** has appointed a person to deal with data protection issues, such as a data protection officer, it is required to provide **Swibeco SA** with this person's contact details.
